DID YOU KNOW? Studies have found that students lose one to two months of math and reading skills over the summer. We want to do everything possible to prevent that from happening and to set them up for success for next school year.

Summer 2022 IXL Challenge!

Goal: Students reach proficiency (score of 80) on 8 math skills and 8 language arts skills by August 25, 2022.

Any students who achieve the summer goal will be recognized when we come back to school in the fall.

Rules:

- The skills must be from the grade level they just finished, one grade level below, or the grade they are going into.
 - For example, a student going into 7th grade can practice 5th, 6th or 7th grade skills.

Students going into	Skills that will count
6 th Grade	4 th , 5 th , 6 th
7 th Grade	5 th , 6 th , 7 th
8 th Grade	6 th , 7 th , 8 th
9 th Grade	7 th , 8 th , 9 th

- The skills must be completed between June 1, 2022 and August 25, 2022.

To track student progress, have the student login to their IXL account. Then:

1. Click on Analytics.
2. Click on Progress.
3. Adjust the date range to [insert summer date range]

From there you and the student can scroll to see on which skills they've reached an 80 and where they need to continue to practice.
