TECHNOLOGY

We will once again be using Seesaw and Clever as our main technology tools at Back Creek Valley. Seesaw is a tool that allows us to communicate as well as provide activities. Clever allows students to use their devices to access programs both at school and home. Seesaw parent codes have been sent home by your child's teacher and you will get a scan code for students to get into Clever. Clever will be extremely helpful if we must go virtual at anytime this year...fingers crossed that we don't!
